

Identification

Records identified from databases (n = 644)

- Web of Science Core Collection (n = 194)
- Scopus (n = 197)
- OpenAlex (n = 253)

Records removed before screening:

- duplicates across databases (n = 318)

Screening

Records screened (title and abstract) (n = 326)

Records excluded (n = 299)

- no spatial GEA with a biotic predictor, or off-topic (n = 296)
- eligible preprints, excluded under the peer-reviewed-only rule [Amendment 5] (n = 3)

Reports sought for retrieval (n = 27)

Reports not retrieved (n = 0)

Reports assessed for eligibility (full text) (n = 27)

Reports excluded, with reasons (n = 10)

- no GEA with a measured or modelled biotic predictor (n = 5)
- no genome-scale discovery markers [Amendment 3c] (n = 4)
- resource proxy without interactor identity [Amendment 3d] (n = 1)

Included

Studies included in the synthesis (n = 17)

- from the declared preliminary scoping (n = 6)
- new from the systematic search (n = 11)
